CURRICULUM VITAE

Jonas Munk Jensen

PhD student, Department of Public Health, Aarhus University · jonas.munk.jensen@ph.au.dk · October 2026

EDUCATION

2025– **PhD student** – *Department of Public Health, Aarhus University / Steno Diabetes Center Aarhus*
Optimizing Self-Management in Type 2 Diabetes: The Role of High-Intensity Interval Training in Enhancing Health Outcomes.

2019 **MSc in Health Science (cand.scient.san.)** – *University of Copenhagen*
Thesis: A five-year follow-up after a four-week daily home-based gait intervention in children with cerebral palsy.

2014 **BSc in Physiotherapy** – *Metropolitan University College, Copenhagen*
Thesis: Explain Pain – the impact of patient education on individuals with chronic pain.

PHD PROJECT AND PLANNED RESEARCH STAY

- **Study 1:** RCT of a municipal diabetes self-management programme with and without supervised HIIT; primary outcome accelerometer-measured physical activity. Data collection completed; analysis ongoing.
- **Study 2:** Qualitative study of decision-making about participation in HIIT (interviews, diaries, observations). First interview round completed; final interviews and one-year follow-up pending.
- **Study 3:** Register-linked cross-sectional study of the use of municipal health services among people with type 2 diabetes (HICD cohort, n = 4,704). Analysis plan in preparation.
- **Research stay, Nov 2027–Jan 2028:** Prof. David Dunstan, Baker Heart and Diabetes Institute and Institute for Physical Activity and Nutrition, Deakin University, Melbourne (sit less, move more), in collaboration with Prof. Ralph Maddison.

PROFESSIONAL EXPERIENCE, RESEARCH

2020–25 **Research Assistant** – *Steno Diabetes Center Aarhus, Aarhus University Hospital*

- Initiated (2022) and led the LIVING project – a national effectiveness evaluation of a new municipal self-management programme, with and without supervised exercise.
- Led the SENS project – a digital solution supporting people with type 2 diabetes in making healthier choices.
- Mapped municipal services for people with type 2 diabetes; developed and evaluated quality improvement projects with municipalities in the Central Denmark Region.
- Organised workshops and theme days for municipal health professionals; evaluated the Diapplo app for families of children with type 1 diabetes.

2019 **Research Assistant** – *Department of Neuroscience, University of Copenhagen* (8 months)
Project management, protocol development and metabolic measurements in individuals with cerebral palsy (cancelled due to COVID-19).

2019 **Internship, International Trial Manager** – *Novo Nordisk A/S, Global Development* (2 months)

2017–18 **Student Research Assistant** – *Bispebjerg Hospital, Copenhagen* (14 months)

PROFESSIONAL EXPERIENCE, CLINICAL

2014–17 **Physiotherapist** – *Geriatrics & Rehabilitation Unit, Frederiksberg Health Center*. Taught home care workers everyday rehabilitation.

2015–16 **Health Consultant (volunteer)** – *Raindrop Foundation, Thailand* (4 months). Taught health professionals neurological rehabilitation of children with cerebral palsy.

2014 **Physiotherapist (volunteer)** – *Ombold, Copenhagen* (8 months)

PUBLICATIONS AND REPORTS

2025 Jensen JM, Sørensen KV, Andersen A. LIVING – Exercise in a self-management program among persons with type 2 diabetes: study protocol. *Contemporary Clinical Trials*. [DOI:10.1016/j.cct.2025.107891]

In prep.	Jensen JM et al. Diabetes self-management programme interventions with and without HIIT – a randomized controlled trial.
	Jensen JM et al. To HIIT or not to HIIT – decision-making among individuals with type 2 diabetes.
	Jensen JM et al. Protocol article - Utilization of municipal health services among people with type 2 diabetes: a cross-sectional, register-linked study
	Jensen JM et al. Utilization of municipal health services among people with type 2 diabetes: a cross-sectional, register-linked study.
Report	Jensen JM, Andersen A. Fælles om patientuddannelse til borgere med type 2 diabetes – en inspirationsrapport. Distributed to all municipalities in the Central Denmark Region.
Report	Jensen JM, Andersen A. The Diapplo app – a qualitative and implementation evaluation at Aarhus University Hospital.

PHD COURSES

Course	Semester	ECTS
European Educational Programme in Epidemiology: (1) Advanced topics in epidemiology: how to deal with missing data and unmeasured confounding; (2) Prevention today: epidemiological bases and public health questions	Summer 2026	3.0
Basic Biostatistics – part 1	Spring 2026	3.2
Developing complex interventions in Public Health	Spring 2026	2.4
Evaluating complex interventions in Public Health	Spring 2026	2.4
Become a productive and joyful researcher	Spring 2026	1.5
Responsible Conduct of Research	Spring 2026	1.0
How to manage your PhD project: Identifying opportunities and challenges – setting the compass	Fall 2025	2.0
Time and Project Management: Risk and coordinating your daily work with the big picture	Fall 2025	1.5
Health – Welcome to the PhD study	Fall 2025	0.5
Total		**17.5**

PRESENTATIONS AND TEACHING

2026	Teaching, Kvantitativ forskningsmetodologi (quantitative research methodology) for MSc students in health sciences.
2026	Supervisor for two physiotherapy students on a LIVING sub-study.
2023	45 min lecture on pragmatic RCTs in a real-world setting, Masterclass, BSc Public Health Science, Aarhus University.
2022–24	Oral presentations (2022, 2023) and poster (2024), Research Retreat and Cross-disciplinary Staff Meeting, Steno Diabetes Center Aarhus.

NETWORKS, OTHER COURSES AND INTERNATIONAL EXPERIENCE

Networks	Research group of Integrated Care, SDCA; the LIVING research group; NABRO – national network bridging civil-society physical activity communities and local healthcare.
Other courses	Process Consultant Certification, Mannaz (2021, 96 h); Research communication on social media (2020); Research Retreat, SDCA (2020–24).
Abroad	Exchange student, Port Macquarie, Australia (1 year, [2005]); volunteer health consultant, Thailand (2015–16).
